We have called the Core

Capabilities Framework the

CCF

[National Survey](#)

We sent a survey to people across the United Kingdom.

We had 5 big meetings with people across the United Kingdom.

We interviewed 13 people.

The people were:

- autistic
- **Health staff**
- people who teach about autism

We asked people what they thought about autism **training**.

We asked people how autism **training** could be better

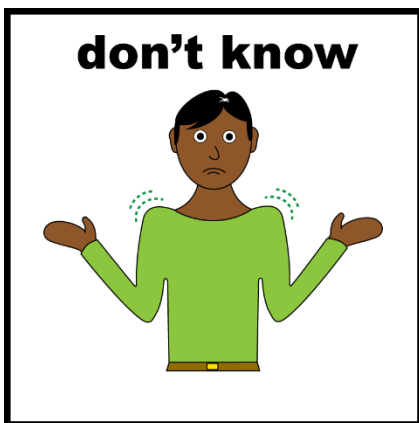

We asked people what made it hard for people to have **training**.

We asked people how they use the CCF

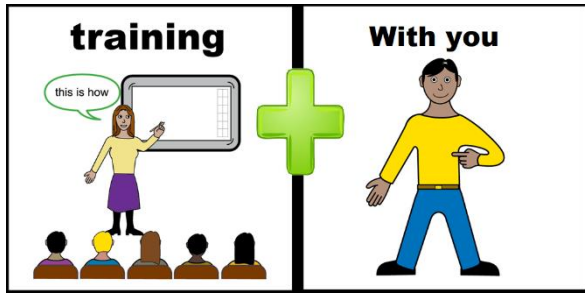

What we learnt

People do not know about the CCF

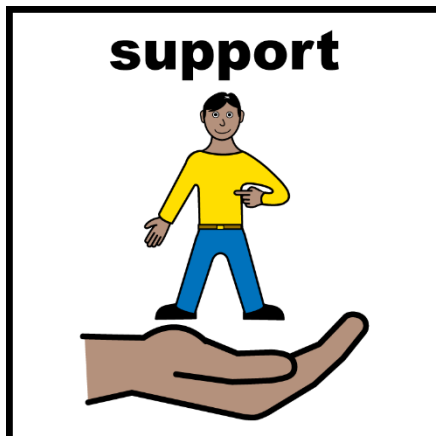

We need to tell more people about the CCF and how to use it

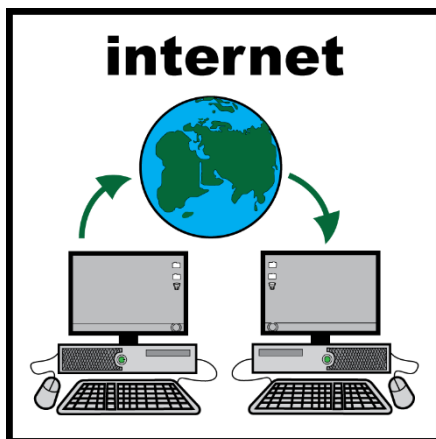

Autistic people should be part of **training** to share their story

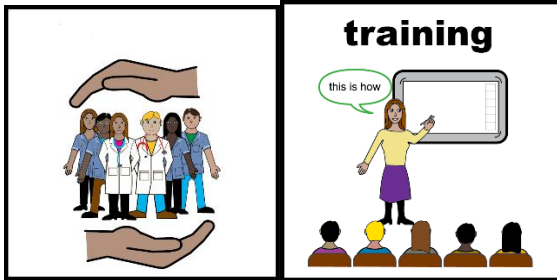

Autistic people should be given equal pay for doing **training**

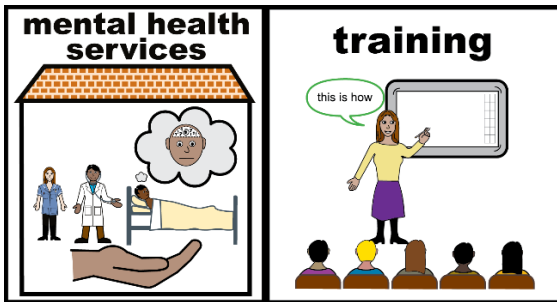

Autistic people need some support to be involved in **training**

People said autism **training** needs to be better and there is now more online **training**.

Health staff need more autism **training**

Mental health staff need more autism **training**

It is hard for health staff to find good **training**

Health staff don't have time or money to go to **training**

Glossary

<u>Word</u>	<u>meaning</u>
Health staff	<p>People like</p> <ul style="list-style-type: none"> • doctors • nurses • occupational therapists <p>The health staff work in a hospital or community setting</p>
